# RECOMMENDATION

Receive and file the performance report on real estate investments for the quarter ended June 30, 2024, as presented by Townsend Group.

# **PURPOSE**

This item complies with SCERS' investment policy statement reporting requirements and contributes to the effective management and oversight of investment activities.

# DISCUSSION

This memorandum provides a summarized table of SCERS' Real Estate period returns, which are provided within Townsend's Quarterly Performance Review, and highlights notable manager performance, along with any recent real estate investments made by SCERS.

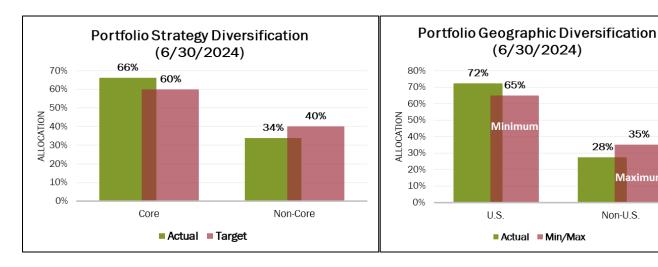

SCERS' Real Estate actual invested allocation is 6.6% as of June 30, 2024, under the target allocation of 9.0% and slightly under the allocation range of 7.0%-11.0%. SCERS' real estate portfolio allocation is currently underweight non-core strategies, which is a focus for 2024 commitments.

### SCERS PORTFOLIO DIVERSIFICATION

# SCERS PORTFOLIO RESULTS

For the quarter ended June 30, 2024, SCERS' Real Estate portfolio underperformed against the NFI-ODCE blended benchmark, -1.6% versus -0.6%. The detractors of performance were the opportunistic strategies (-8.7%) where there is more development risk.

The private real estate market continued its decline as transaction volumes are down leaving little insight into property pricing. Financing has been difficult due to the uncertain economic environment and interest rate levels further impacting real estate valuations.

# **SCERS Real Estate Portfolio Overview**

SCERS has a target real estate allocation of 9% with an allowable range of 7.0%-11.0%. As of the end of the second quarter, 2024 (the "Quarter"), the Real Estate Portfolio was below the real estate target and below the allowable range at 6.6%. While the real estate allocation at 6.6% is less than the 7% minimum, we note that 1.2% of capital is undrawn as of the second quarter. As noted in the past, it is likely not all capital will be drawn, but SCERS is constantly evaluating new investment opportunities to deploy capital. Core Real Estate currently makes up 66.1% of the portfolio, with Non-Core Real Estate making up the remaining 33.9%.

#### SCERS' Real Estate Portfolio Construction:

- Performance of the Core Portfolio is evaluated over rolling 10-year time periods relative to the NCREIF Fund Index of Open-End Diversified Core Equity funds ("NFI-ODCE"), net of fees. The NFI-ODCE represents the aggregation of twenty-six Diversified Core open-end commingled funds invested across the United States.
- In July of 2017, Staff and Townsend recommended revising the Real Estate IPS to reflect transition away from IMAs, including removal of the Core vehicle constraints of 0-60% (30% target) for funds and 40-100% (70% target) for IMAs, which was subsequently approved by the Board.
- In 2018, SCERS' Core IMA Program transitioned to a commingled fund manager. Following an extensive bidding, selection and structuring process, Staff and Townsend selected Clarion's Lion Properties Fund as the recipient for the Core IMA Portfolio. Given the size of the Core IMA Portfolio, SCERS reduced concentration risk by allocating funds to an additional manager, Brookfield's Premier Property Partners, in order to achieve greater diversification within the Core Portfolio. SCERS' investment in Brookfield Premier Property Fund was funded October 1, 2018.
- The loan-to-value ratio of the Private Real Estate Portfolio was 40.4% at the end of the second quarter of 2024. The loan-to-value ratio of the Core Portfolio was 36.2%, below the 40.0% leverage constraint for Core as approved by the Board. As a point of reference, the loan-to-value ratio of the NFI-ODCE was 27.2% as of the second quarter. The Non-Core Portfolio reported a loan-to-value ratio of 47.2%.

# **Private Real Estate Performance**

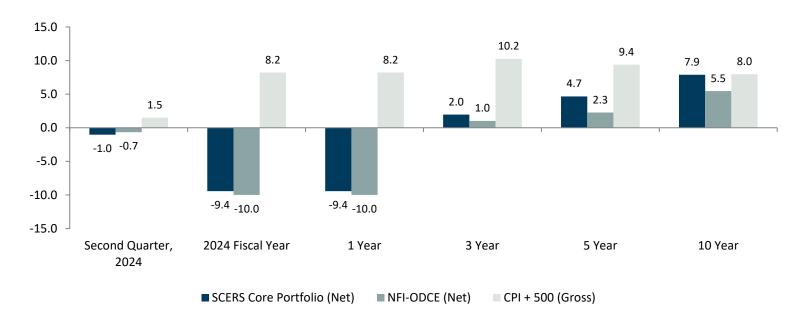

- The SCERS Private Real Estate Portfolio includes: (1) Core Real Estate and (2) Non-Core Real Estate.
- The SCERS Private Real Estate Benchmark is comprised of the NFI-ODCE (Core Benchmark, net) (65%) and the NFI-ODCE + 100bps (Non-Core Benchmark, net) (35%), resulting in an NFI-ODCE + 35bps (net) portfolio benchmark.
- The SCERS Private Real Estate Portfolio generated negative returns in the second quarter of 2024, underperforming the benchmark by 105 basis points. Underperformance was driven by the Non-Core Portfolio, particularly in the Opportunistic portfolio, including a strategy with exposure to office and other strategies with exposure to China. Nevertheless, a number of investments produced outsized returns, including industrial, alternative real estate property types, and Japanese investments.
- However, the SCERS Total Real Estate Portfolio outperformed the benchmark over all other time periods driven by the robust performance of the Core funds as well as the Non-Core investments.

# **Core Portfolio Performance**

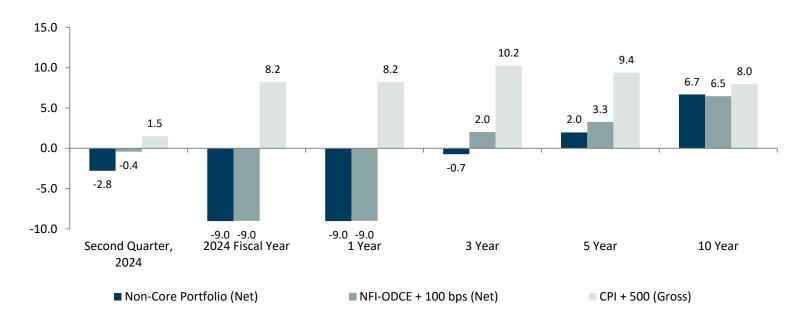

- The SCERS Core Portfolio consists of seven open-end Commingled funds. These include several diversified Core and Core Plus funds, as well as two sector specific industrial funds.
- Performance of the Core Portfolio is evaluated relative to the NCREIF Fund Index of Open-End Diversified Core Equity funds ("NFI-ODCE"), net of fees. In aggregate, the Core Portfolio outperforms the NFI-ODCE, net of fees, over all time periods except for the trailing quarter. The NFI-ODCE benchmark has been slow to reflect changing real estate market conditions; appraisers have been hesitant to justify significant valuation changes due to the lack of transactions.
- During the Quarter, the Core portfolio underperformed the NFI-ODCE by 37 basis points generating a -1.0% net return as the Core open-end fund managers continue to write down their assets in response to the higher interest rate environment. The underperformance of the Core portfolio was primarily due to Brookfield Premier Real Estate Partners (-2.8% net), Lion Properties Fund (-1.9% net), and Townsend Real Estate Fund (-1.3% net). On the other hand, Prologis Targeted U.S. Logistics Fund (1.3% net) and Prologis European Logistics Fund (1.1% net) provided positive returns to the Core portfolio during the quarter.

# **Non-Core Portfolio Performance**

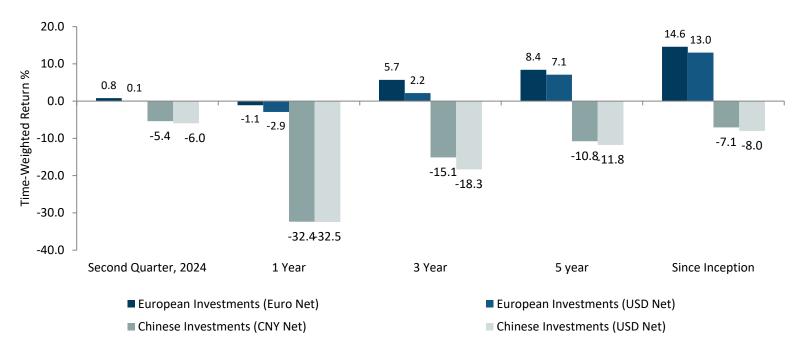

- The SCERS Non-Core Portfolio includes both Value Added and Opportunistic Real Estate strategies, which are defined in the Glossary of Terms.
- The Non-Core Portfolio's performance has been mixed underperforming during the quarter, 3-year, and 5-year time periods, but outperforming or meeting the benchmark over the 1-year and 10-year periods.
- During the quarter, the Non-Core Portfolio underperformed the benchmark by 238 basis points recording net returns of -2.8%. The underperformance is attributed to the weak performance of the opportunistic investments generating -8.7% in net returns, largely driven by the negative performance of CIM Fund VIII (-39.2% net), Carlyle China Realty (-6.6% net), Carlyle Project Rome Co-Investment (-6.5% net), and LaSalle China Logistics Venture (-4.7% net).
- Seven Seas Japan Opportunity Fund was the strongest absolute performer and contributor during the second quarter, generating 7.3% in net returns.
- Sculptor Real Estate Fund IV was the largest contributor to positive relative performance for the trailing year, generating a 11.9% net return.

# **Ex-US Portfolio Performance**

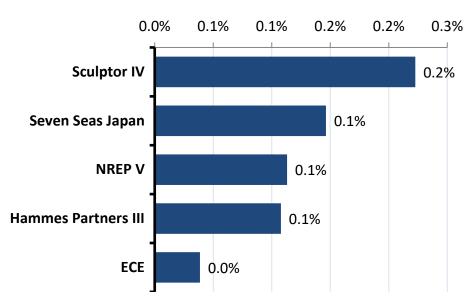

- Approximately 23.0% of the SCERS Portfolio is comprised of Ex-US investments. SCERS does not currently hedge its foreign currency exposures and pays liabilities in US Dollars. As such, FX movement will impact performance for Ex-US investments. The chart above isolates European and Asian investments and displays performance both before and after currency conversion.
- During the quarter, the impact of currency movement was slightly negative on foreign investments with both investments in Euros and Chinese Yuan. Currency impacts on performance tend to be cyclical in nature.
- The SCERS Euro Denominated Composite includes: ECE European Prime Shopping Center Fund II, NREP Nordic Strategies Funds I-V, and Prologis European Logistics Fund (PELF).
  - Since Inception period begins 1Q15.
  - For the purposes of this composite, DRC has been excluded since it is a Pound denominated fund.
- The SCERS Chinese Yuan Composite includes: Carlyle China Realty Fund, Carlyle's Project Rome and LaSalle China Logistics Venture.
  - Since Inception period begins 3Q17.
  - Carlyle and LaSalle investments are USD denominated at the fund level, but property values are exposed to currency translation.

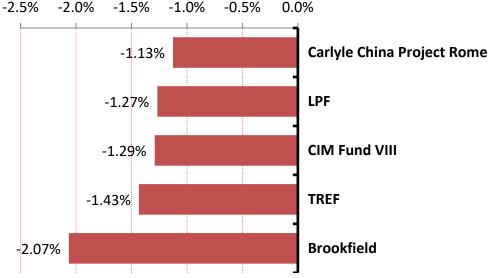

<sup>\*</sup>Seven Seas Japan was excluded from the graph because the fund is a Japanese Yen denominated fund.

# **Performance Attribution- One Year Period**

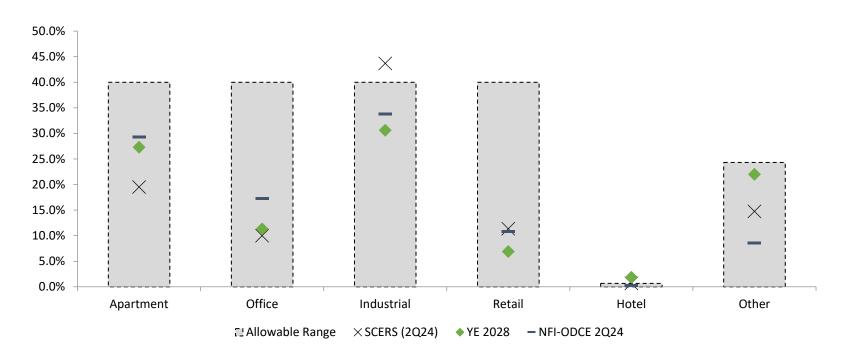

- Over the trailing twelve-month period, the top five performers were non-core investments, including value-add and opportunistic funds, which drove outperformance of the SCERS Portfolio recently. The funds include Sculptor Real Estate Fund IV, Seven Seas Japan Opportunity Fund, NREP Nordic Strategies Fund V, Hammes Partners III, and ECE European Prime Shopping Centre Fund II.
- The largest detractors were mainly Core funds, given the continued valuation write-downs witnessed across all stabilized properties due to higher interest rates along with increased cap rates.
- Brookfield Premier Real Estate Partners was the largest detractor. Brookfield's performance was impacted by valuation write-downs, primarily in the office sector.
- Townsend Real Estate Fund was the second largest detractor in a 1-year period due to its large weight in the portfolio during a year of negative returns. However, it has outperformed the benchmark over all annualized time periods.

# **Real Estate Private Portfolio Diversification – Property Type**

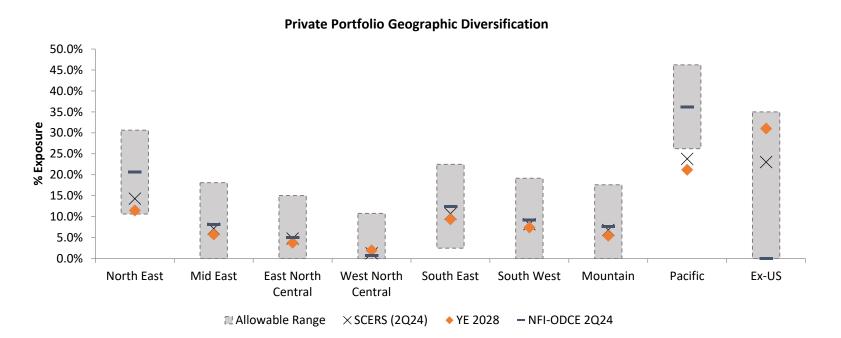

- The diversification of the Private Portfolio is compared to the diversification of the NFI-ODCE, and has a maximum limit of 40% for each property type, except for the "other" property type which has a maximum limit of 25%\*\*. The Real Estate Policy also allows for temporary deviations in order to provide SCERS with the flexibility required to overweight or underweight property types during certain parts of the market cycle.
- As of the second quarter, the industrial property type was the only sector outside the current set limit of 40%. However, the industrial exposure has already been brought down through a prior partial redemption and is anticipated to decrease further as new non-industrial investments continue to call capital.
- The "Other" property type exposure represents Sculptor Real Estate Fund III\* (parking, senior housing and cell towers), Sculptor Real Estate Fund IV (parking), CIM Fund VIII (condominiums), Hammes Partners II, III and IV (medical office), Townsend Real Estate Fund (student housing and medical office), NREP Nordic Strategies Fund II (student housing), NREP Nordic Strategies Fund III (senior living and land), NREP Nordic Strategies Fund IV (senior living), and NREP Nordic Strategies Fund V (senior living).

<sup>\*</sup>Sculptor Real Estate Fund III was previously called Och-Ziff Real Estate Fund III.

<sup>\*\*</sup> The 25% limit is for "Other" property type exposure including hotels. However, our chart currently separates the "Hotel" property sector from "Other" due to be aligned with the ODCE classifications.

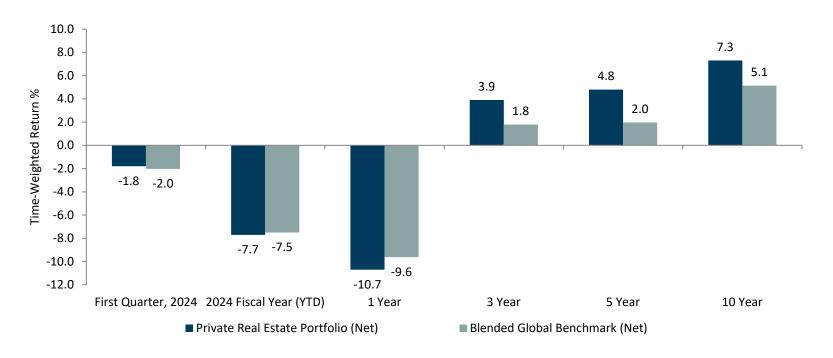

# **Real Estate Private Portfolio Diversification – Geographic Region**

- The diversification of the Private Portfolio is compared to the diversification of the NFI-ODCE, with a permissible deviation of ± 10.0% for each region. Ex-US exposure is limited to 35.0% of the Total Private Portfolio.
- As of the second quarter, the Private Portfolio was in compliance across all regions excluding the Pacific.
- The Private Portfolio's international exposure is 23.0%, well within its 35% constraint, and will remain similar as newer funds such as NREP Nordic Strategies Fund III, IV and V, as well as LaSalle China Logistics and Seven Seas Japan continue to call capital and purchase assets in Europe, China and Japan while older vintage funds liquidate.
- Ex-US exposure consists of China (4.8%), Denmark (3.5%), Sweden (3.5%), Germany (2.8%), Finland (2.3%), United Kingdom (2.0%), Poland (1.7%), Japan (1.5%), Netherlands (1.3%), France (1.1%), and other countries (3.5%).

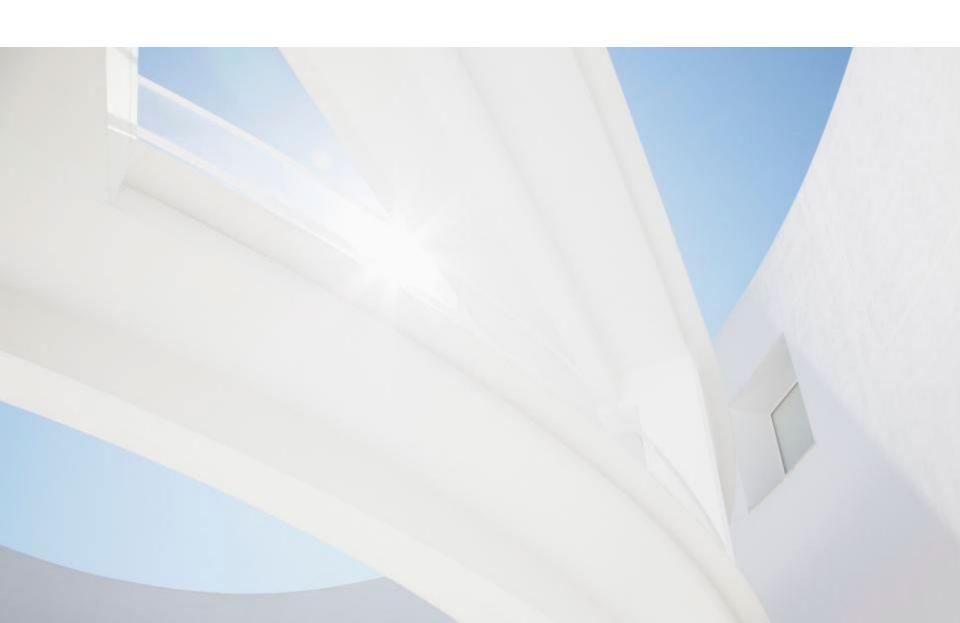

# **Private Real Estate Performance – Global Ancillary Benchmark (1Q24)**

- The Global Ancillary Benchmark is made-up of the NFI-ODCE (Core), NFI-ODCE + 100bps (Non-Core), GREFI Europe Core, GREFI Europe Non-Core, and GREFI Non-Core Asia Pacific to create a global blended benchmark based on weighted average invested capital for each strategy.
  - GREFI reports on a 12 week lag. As a result, the ancillary benchmark will be reported on a quarterly lag to SCERS.
- The Private Portfolio's international exposure is 23.0%, well within its 35% constraint. International exposure is mainly Non-Core in nature, with the exception of Prologis Targeted Europe Logistics Fund.
- The SCERS Private Real Estate program has outperformed its secondary benchmark significantly over the medium and long-term, but underperformed over the short-term.

| INDUSTRIAL | MULTIFAMILY |
|------------|-------------|
|------------|-------------|

- In 2Q24, industrial properties returned 0.20% and outperformed the NPI by 46 bps.
- Transaction volumes increased to \$21 billion in the second quarter of the year, resulting in a 12% decrease year-over-year. Individual asset sales decreased 12% year-over-year, while portfolio purchases turned in a year-over-year volume decrease of 30%. At \$21 billion, the industrial sector decreased by \$3.6 billion quarter-over-quarter.
- The industrial sector turned in NOI growth of 8.7% over the past year. NOI continues to reach all time highs for the sector.
- Vacancy increased by 110 bps year-over-year to 2.9%. Vacancy in the sector increased 31 bps from the prior quarter. E-commerce continues to drive demand across the sector.
- Industrial cap rates expanded approximately 27 bps from a year ago, to 4.2%. Industrial
  overall fundamentals still top all property sectors.

- The apartment sector delivered a 0.15% return during the quarter, outperforming the NPI by 41 bps.
- Transaction volume in the second quarter of 2024 increased to \$40 billion, resulting in an
  increase of 25% year-over-year. Transaction volume for the sector increased from the first
  quarter by \$19 billion. This volume continues to make multifamily the most actively traded
  sector for the twenty-fifth straight quarter.
- Cap rates increased to 4.4% quarter-over-quarter, increasing 42 bps year-over-year.
   Multifamily cap rates remain at low levels relative to prior years, driven by continued investor demand.
- The multifamily sector saw increasing vacancy rates throughout the entirety of 2020 due to the global pandemic. Throughout 2021 and 2022, the sector appeared to have shaken that trend although vacancy rates remained steady. Vacancy rates decreased quarter over quarter to 6.0% as of the second quarter of 2024. The aging millennials have begun shifting their desires to suburban living, but continued home price appreciation has deterred the full effect of this migratory trend.

OFFICE RETAIL

- The office sector returned -2.36% in 2Q24, 210 bps below the NPI return over the period.
- Transaction volumes decreased by 15% year-over-year in the second quarter. Transaction volume equated to \$12 billion for the quarter, slightly decreasing quarter-over-quarter. Office transaction levels have regressed since 4Q21 and are at levels seen during the COVID-19 pandemic.
- Office sector vacancy rates have expanded since the beginning of the pandemic due to a shift
  to work-from-home and resulting uncertainty revolving around the future of office space.
  Office continues to be the highest vacancy property type at 14.8%, increasing by 50 bps from
  last quarter.
- NOI growth in the office sector decreased quarter-over-quarter by 370 bps to -1.4% and is still
  experiencing volatility given the current market environment.
- Office cap rates expanded from a year ago, sitting at approximately 6.2%. Office-using job
  growth was stunted significantly throughout 2020 due to work-from-home orders. Though we
  are observing a slow but steady flow back to in-office work, there is still uncertainty in the
  sector.

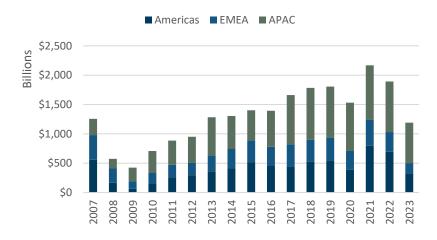

- As of 2Q24, the retail sector delivered a quarterly return of 0.89%, outperforming 115 bps compared to the NPI.
- Transaction volumes totaled \$11 billion in the second quarter, decreasing 1% year-over-year.
   Single asset transactions accounted for just over 87% of all sales volume for the quarter.
- Cap rates have remained fairly steady within the sector over the last year but have slightly increased as of the second quarter at 5.6%. Current valuation cap rates slightly expanded quarter-over-quarter by 1 bps due to valuation adjustments made across the sector in general.
- NOI growth decreased from the prior quarter to -3.4% as of the second quarter. Retail has begun its slow recovery but has continued to experience volatility due to the current market environment.
- Retail vacancy rates remained steady over the quarter at 7.6%, remaining flat over the past year. Many big box stores have closed as the need for retail space shrinks, translating to a negative outlook for rent growth. Paired with the global economic crisis, which has had a significant negative impact on this sector.
